

Project Content Scheduler™

Your Signage Revolution Awaits!

Put the right message on your sign — at exactly the right time.

Project Content's Scheduler is the control center behind your digital sign. It gives you powerful scheduling, automation, and visibility — without complexity.

Why Scheduler™ Matters

Enhanced User Experience

Dive into a game-changing, cloud-based User Interface designed specifically for digital sign management. Scheduler is easy to use, mobile-friendly and allows you to manage your signs anytime, anywhere.

Scheduler is more than a scheduling tool. It's a comprehensive suite integrating with Project Content's full collection of apps for innovative content creation and scheduling.

Built for Real Life

Handles daily routines, recurring events,

Set it & Trust it

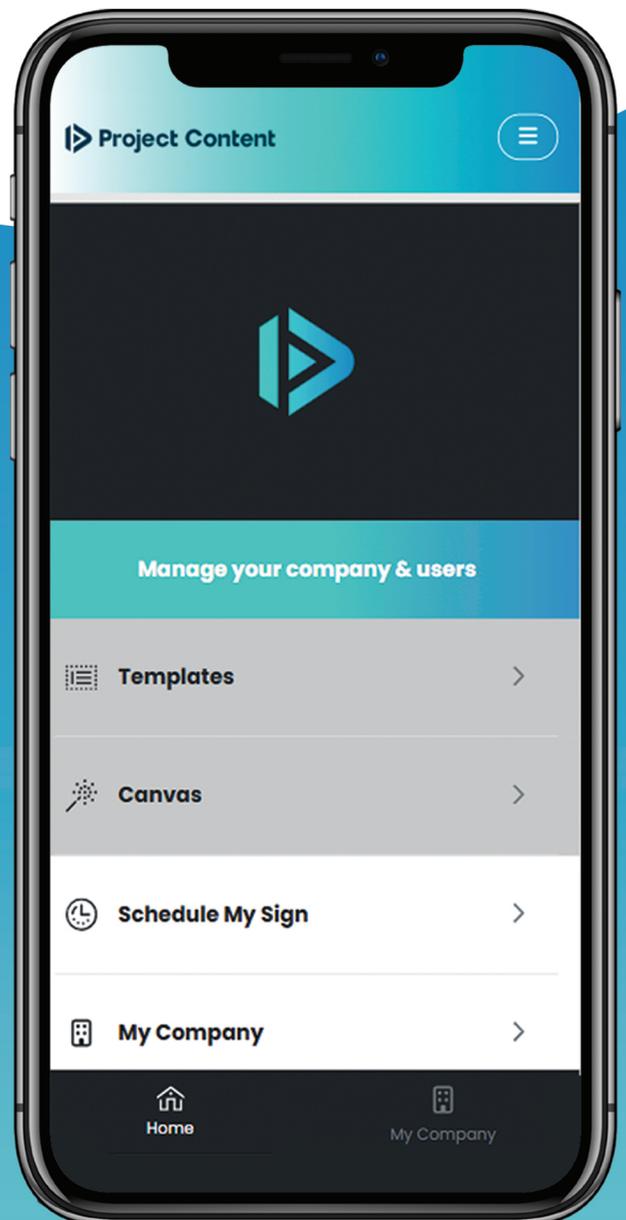

No babysitting. No guessing.
Your sign runs exactly when it should.

Total Control

Schedule content by date, time, day, or season — down to the hour.

www.projectcontent.com

Scheduling Made Simple

Powerful tools that stay out of your way.

- ✓ Date periods for campaigns, events, and promotions
- ✓ Hour-by-hour playback control
- ✓ Recurring daily schedules
- ✓ Monthly & yearly repeats
- ✓ Advanced rule-based scheduling
- ✓ Pause content instantly — no rebuilding required

Why it matters:

Scheduler turns signage from a daily task into a reliable marketing engine.

Features That Keep Signs Relevant

Emergency Alerts (FEMA IPAWS)

Instant Silver, Amber, and Emergency alerts delivered directly to your sign.

Live Data with Sheets

Connect a spreadsheet so updates happen automatically — no design tools required.

AI Content Generation

Create images and text in seconds using built-in AI tools.

Unsplash Image Library

Access millions of royalty-free images, fully integrated and included.

Counters & Timers

Live countdowns and count-ups that create urgency and attention.

Weather & Time Widgets

Display current time and weather and optional upgraded extended forecasts to build daily relevance.

Proof, Accountability & Control

Proof of Play Reporting

Track exactly how often each message displays.

Comprehensive Admin Dashboard

Manage users, signs, and schedules in one place.

Multiple Display Control

Run different content on each face of a double-sided sign — no extra hardware required.

Multi-Factor Authentication (MFA)

Enterprise-grade security for sensitive public-facing content.

Create Content Your Way

Dive into a game-changing, cloud-based User Interface designed specifically for digital sign management. Scheduler is easy to use, mobile-friendly and allows you to manage your signs anytime, anywhere.

Scheduler is more than a scheduling tool. It's a comprehensive suite integrating with Project Content's full collection of apps for innovative content creation and scheduling.

Upgraded Presto & Custom Content Plans

Need more of our professionally designed templates, or custom content designed for your unique branding and marketing needs? Scheduler's optional upgraded content plans are available.

Canvas

Design from scratch with full creative freedom. Unlimited content, no credits, fully optimized for your sign.

Why it All Adds Up

Hardware gets you a sign. **Scheduler makes that sign work for you.**

Because Project Content is cloud-based and constantly evolving, the sign you install today becomes more powerful over time — without replacing hardware or adding complexity.
